World.BURNETT'S COCAINE allays
irritation, removes all tendency to
dandruff, invigorates the action of
the capillaries in the highest degree,
and has earned a deserved reputation
for promoting the growth and
preserving the beauty of the human
hair. Ladies dressing their hair
elaborately for the evening will find
that it imparts a healthy natural
gloss to the hair, and will cause it to
retain its shape for hours.BURNETT'S FLAVORING EX-
TRACTS are used and endorsed by
the best Hotels, Confectioners and
Grocers throughout the country.
They are perfectly pure.It looks as if the agent of the
Provo Mills, in the Old Constitution
Building, was expecting to sell some
Woolen Goods this fall, by the im-
mense stock of Blankets, Flannels,
Cloths and Yarns, etc., that he has
received lately. The demand for
their goods is increasing, as they
give satisfaction to consumers.CANDY N-W
RAILWAYIT IS TRULY WONDERFUL
To see what improvement now exist
as compared with railway travel
only a few years ago. To become
convinced of this, one has only to
select for his route East, the popular
and well knownCHICAGO & NORTHWESTERN R'y.
You are landed by the Union Pacific
Railroad in the Union Depot at
Council Bluffs, where stands the C.
& N-W. Palace Train, composed of
Pullman Hotel Cars, Pullman Sleep-
ing Cars, Elegant Day Coaches,
Smoking, Baggage, Postal Cars, etc.,
ready to convey its passengers
through Iowa and Illinois, and into
Chicago. Gliding smoothly along
over the superb track of steel rail
through thriving cities and villages,
comfortably seated in this train, one
scarcely discovers the high rate of

THE ONTARIO.

Improvements now in Progress in
this Famous Property.

The Best Mine in the Country.

A new shaft is being sunk on the
Last Chance claim of the Ontario
group, which will be the largest
shaft to be found anywhere except-
ing those of the celebrated Com-
stock, and the machinery will be
equal, if not superior, to any there or
anywhere else. It is to be of
three compartments, two hoisting
compartments 4 1/2 x 5 feet, and one
pump compartment 6 x 7 feet; mak-
ing the total length over 21 feet and
the width over 8 feet. In this shaft
will be placed the heavy machinery
of which previous mention has been
made, and which is now nearly all
on the ground. The castings, in-
cluding the pump and pumping en-
gine, weigh over 500 tons; and the
Baby hoist engine for handling the
pump machinery, also the powerful
hoisting engines for raising ore will
weigh over 100 tons, making a grand
total of over 400 tons of machinery.
The rock work to sustain this power-
ful machinery will be thirty-eight
feet in depth by forty-six feet in
length, part of which is five feet and
the balance eight feet of solid cut
masonry, cemented together with
the best of Portland cement. The
two hoisting engine pits are fifteen
feet deep by forty feet in length,
and will be filled with solid rubble
masonry.The shaft is now down a depth
of 100 feet, and is being sunk as
rapidly as possible. It is the inten-
tion to carry it so that it will con-
nect with the 600-foot level, which
is being driven west, thereby mak-
ing a through connection with the
whole mine when the shaft and the
level are completed.The drain tunnel being driven to
connect the mine with the mill, is
now in a distance of some 250 feet,
and is also being pushed ahead as
rapidly as possible. This tunnel,
when finished, will be nearly one
mile in length, and it is the present
intention, if possible, to finish it
within two years.The remarkable feature connected
with these improvements, which, as
can readily be seen, are of the most
extensive and expensive character,
is that this mine continues to make
enough to bear all these burdens
and still pay its regular dividend of
\$75,000 per month. It is safe to say
that no other mine in the country
can make as good a showing, and it
should speak volumes in favor of
Utah's mining resources.

The California Central.

Regarding the Utah Division of
the California Central Railroad,
particulars concerning which we
have published for a day or two
past, it seems that no time is being
lost. On the 3d inst, the Pacific
Record has the following:"The railroad surveyors who went
to Crystal Springs are all pushing
ahead with their work. The party
surveying from Crystal Springs
eastward were down at Panaca last
Monday. The survey runs about
three miles south of Panaca. This
party is surveying toward Iron City,
Utah, and are not going to survey
through the Desert Station route, as
we published some time ago. The
party engaged in surveying to the
west, according to the latest report,
have nearly completed the survey
through what is called Tem Pahute
Valley. The third company of sur-
veyors have their faces turned
toward the south, and are probably
making for the "Needles" on the
Colorado. It is impossible to learn
anything from the surveyors in re-
gard to their work, as they are very
reticent in regard to this subject; in
fact, appear to know nothing."This does not state that the sur-
veyors are in the employ of the Cali-
fornia Central, but such will be the
inference. It is also an evidence
that business is meant.

TOOELE.

A Prosperous Place and a Happy
People.

TOOELE CITY, Sept. 20, 1881.

Editors Herald:

Even in this quiet little town
there is something to suggest cor-
respondence. Few things could be
more gratifying to those who feel
solicitous for the welfare of Utah
people than to see the waste places
converted into desirable homes. It
might be somewhat difficult to find
a district anywhere on the vast
area of Utah's soil that has been
peopled in the face of poorer facili-
ties and fewer real inducements
than has Tooele. The most closely
observing person fails to discern a
resemblance between this barren
tract, as it was when hopeful, deter-
mined pioneers pitched their tents
here some thirty years ago, and the
now flourishing little settlement,
with its golden fields and fruit-
laden orchards. The long days of
toilsome labor, with all their dis-
couragements, are nearly forgotten
in the presence of smiling prosper-
ity. Tooele has scarcely seen a more
plentiful fruit crop than the present
one. Especially are the peaches
and grapes prolific.The wonderful progress of this
small community is as prominently
apparent in their domestic, social
and business affairs as in the pleas-
ing transformation which persistent
effort has wrought in the general
appearance of the place. Where
once old patched-up cabins and
shanties served as habitations, there
are now some of the most desirable
residences. One would almost sus-
pect that brick houses had become
fashionable with the people here,
to see the many well-designed and
neatly finished houses that have
quite recently been put up.All of this is surprising to the
visitor, but he is fairly astonished
in discovering the extensive busi-
ness done in this miniature city.
The new Co-op. store alone—large
and commodious—carries a stock of
merchandise which to the stranger
appears almost unwarrantable, but
which, by the efficient management
of Supt. Geo. Atkin, is turned over
in an incredibly short time. In ad-
dition to this and doing an excellent
trade is the firm of Slater & Her-
man, and even a third party seems to
find profit in competition. Then
there is a thriving little boot and
shoe factory and a tailoring estab-
lishment, both in connection with
Z. C. M. L. If the wonderful im-
provements and pleasing changes in
the farm, the garden, the residence
and the business excite admiration
what must be one's feelings when
he has found his way into the soci-
ety of these people, and has
chatted at the hearth, and met with
them in their public gatherings?It is indeed surprising to see how
short a time is required to assemble
the whole populace (excepting a
few) even on so busy a day as Sat-
urday. Fortunately, I happened here
at a time in every way propitious to
my welfare. On Saturday the pri-
mary and young peoples' improve-
ment associations of Tooele stake
met in conference. The large fine
meeting house was well filled
and the exercises throughout the
day were of a highly interesting
character, and rendered doubly so
by the happy addresses given by
Mrs. Jas. Freese and Miss Mattie
Horne—missionaries from Salt Lake
City. Meetings of the relief soci-
eties were held on the Sabbath, when
other lady missionaries contributed
to the general interest of the con-
ference. Altogether it was very
pleasing. I thought I saw in the
unity of these people the secret of
their peace and prosperity. This
happy condition is doubly gratify-
ing when we recall those days that
were darkened with political mist,
from which it is hoped the good
people have emerged forever. D.

Skill in the Workshop.

To do good work the mechanic
must have good health. If long
hours of confinement in close rooms
have enfeebled his hand or dimmed
his sight, let him at once, and before
some organic trouble appears, take
plenty of Hop Bitters. His system
will be rejuvenated, his nerves
strengthened, his sight become
clear, and the whole constitution be
built up to a higher working con-
dition.SILVER CREEK, N. Y., Feb. 6, 1880.
GENTS—I have been very low, and
have tried everything, to no ad-
vantage. I heard your Hop Bitters
recommended by so many, I con-
cluded to give them a trial. I did,
and now am around, and constantly
improving, and am nearly as strong
as ever. W. H. WELLER.We have on hand the finest stock
